

Payroll - Equator Payslip Distribution

Use eDoc deposit uploader to deliver your payslips to the web...

As an addition to our Equator Payroll module, now busy company payroll managers can enjoy time savings, cost optimisation and reduce their businesses' carbon footprint by utilising the additional eDoc deposit service to enable you to deliver payslips and P60's to employees.

Facts

The Benefits of Payroll

- No more printing and distributing payslips. Just one click and your payslips or P60's are sent to the internet.
- Huge reduction in printing and distribution costs. Printed payslips and specialised sealing machines are no longer needed
- Significantly reduces time pressures for those processing the payroll
- No more payslip reprint required as the employee has access to his/her own payslips on the internet

McBurney Transport uses eDoc Deposits to deliver documents to over 600 employees

"I save 4.5 hours per week in handling and distributing the payslips and that is on top of savings in paper consumption and ink for inkjet printers. A significant percentage of payslips had previously been posted to employees homes so the savings in postage cost alone is significant."

Payroll manager at McBurney Transport
